

DIRECTIONS FOR RACE FUEL

About 4.5 miles from the track, there is a gas station that sells race fuel. "Road Ready" has 2 grades of Sunoco CAM II, 110 octane leaded "Purple" and a lower octane race fuel that may contain oxygenators, which may not pass fuel tech. To get there, take Hempstead Turnpike East 0.6 miles from the Coliseum entrance. Turn right onto Merrick Avenue and go 1.2 miles to Bellmore Avenue, which branches to the left. Go 0.7 miles to North Jerusalem Road and turn left. Go 1.6 miles and the Road Ready gas station is on your right. The CAM II gas pumps are around the right side of the gas station.
